Sobre mi

I have just completed the Higher National Diploma in Web Application Development (DAW) and my Erasmus+ internship in Austria as a full-stack developer. During that time, I took part in the development of internal applications, combining interface design, programming, and deployment.

I am interested in continuing to grow as a front-end developer, learning new technologies, and taking on projects where I can apply my knowledge of React, Angular, TypeScript, and responsive web design.

Experience

JKU ITS Austria
Full Stack Developer Intern
https://jku.at/its

- I participated in the development of internal research applications using React and Python.
- I helped design and implement a project management system with dashboards and indicators.
- I collaborated with the research team by enabling customized tools for each European project.

Tech stack: Angular · TypeScript · Node.js · SQL · Jira

VIU (GRUPO PLANETA) Valencia
Técnico IT Nivel 2
https://viu.es

- I provided remote technical support during online exams and managed incidents using Jira.
- I documented procedures to reduce recurring errors and improve user support.

Minsait Indra Valencia
Técnico IT
Minsait

- I resolved technical incidents for internal project teams.
- I gained experience in problem-solving and collaborative work.
- I was responsible for providing full IT support for an entire office client, working full-time in both French and English.

Projects

Autotok (autotok.net)
Plataforma experimental para generar videos de TikTok de forma automatizada
https://autotok.net

Role: Front-End Developer and UI/UX Designer

Tech stack: Angular · Node.js · REST API

I implemented parts of the front end, practiced API integration, and worked on component structuring.

This was a collaborative university project with several participants, and I was responsible for the entire visual side of the project, including both the landing page and the dashboard, from start to finish.

Portfolio
Sitio web para mostrar mis proyectos y proceso de aprendizaje
https://kauman.me

- **Role:** Front-End Developer and Designer
- **Tech stack:** Angular · TypeScript · CSS

I designed and developed the website from scratch, applying responsive design and animations.

Education

Florida Universitaria Grado Superior en Desarrollo de Aplicaciones Web (DAW)

IES ABASTOS Grado Medio en Sistemas Microinformáticos y Redes (SMR)

Certifications

Google UX Design Professional Certificate (Google)
Google

Skills

Front-End / Back-End
Node.js, REST APIs, SQL, HTML5, CSS3, JavaScript, TypeScript, React, Angular, Context API, Redux

UI/UX
Figma, Wireframing, Prototyping, Interface design, Usability, Visual hierarchy, User testing, Design systems, Responsive design

Tools & Workflow
Git, GitHub, Jira, Docker, Agile/Scrum methodologies, basic CI/CD, Linux
